## FAIR WEATHER IS FAIR ENOUGH FOR FAIR PROMOTERS

All They Ask is For Weather  
Man to Remain Neutral and  
Keep Hands Off.

Every Other Factor Has Been  
Looked After.

### FINAL APPEAL TO THE WOMEN.

To the Ladies of Paducah and  
Vicinity:

The Paducah Fair association, requests of you that you send all of your display articles to the fair grounds Tuesday, September 27, between the hours of 9 a. m. and 12 noon and 1:30 p. m. to 4 p. m. If you have no displays kindly tell your neighbors to bring what they might have. If there are no prizes offered in the catalogue we will see that you get one and also a blue ribbon. The fair association desires to make floral hall one of the main features and your efforts and work is all we need to make it a success. Remember there is no entry fee charged and also remember Wednesday, the opening day, will be "Ladies' Day," no admission to the grounds being charged the women. Our earnest request is that you all attend. Respectfully,

RODNEY C. DAVIS, Sec'y.

Three more days and then the fair. Rapidly the time is approaching for west Kentucky's biggest event in years. Never in the history of the fair association has so much enthusiasm been aroused among the women as well as the business men of Paducah. And the farmers—they will be in the swim, too, and their displays are to be crowd getters and prize winners. The fair is bound to be a success and the officials have never entertained any thought of the fair being anything but a success.

They are taking the sunny side view of it and if the weather man will just help as much as the business men, women and farmers have, there will be no room for kick. The directors are saying nice things about the weather man and request that he bundle up the clouds in some other vicinity until Wednesday, Thursday, Friday and Saturday have passed into history.

It will be hard to over-estimate the number of visitors who are coming here. West Kentucky is going to turn out and the fair grounds will be packed from 9 o'clock in the morning until late in the afternoon. Special rates have been offered by the railroads and steamboats as an inducement for out-of-town people to come and the local packets will arrange excursion schedules during the four days.

No stone has been left unturned in preparing for the big festival. Nothing has been overlooked for the entertainment of the people.

Floral hall will be a brilliant promenade, where every display imaginable will be featured. Eighteen beautifully decorated booths will contain the displays of both local and out-of-town merchants. One section of the big hall will contain the fine types of tobacco. A second is reserved for all kinds of farm products, the best obtainable. Then comes the ladies' exhibits along the two aisles. The interior of the hall will present a palatial appearance and will be a place that will attract the attention of every one.

Next Tuesday morning between 9 a. m. and noon and between 1:30 p. m. and 4 o'clock the hall will be open for the receiving of the displays. Miss Mary Bonds will be the entry clerk for the ladies' exhibits, while Mr. Walter Settle will have charge of the other entries. Exhibitors are not compelled to purchase a ticket, as thought by many.

In order that no dispute may arise from the awarding of prizes for the best types of tobacco the association will have out-of-town judges. Competent judges will come from Hopkinsville, Clarksville and Louisville, the big tobacco markets, and fair decisions are assured. The association has declined the services of local tobacco men in the awarding of prizes.

### Fell From Tree.

While playing in a tree at Metzger's grove, about 4 o'clock yesterday afternoon, Lula, the 12-year-old daughter of Mr. and Mrs. Walter Pryor, of the Mayfield road, lost her balance and fell to the ground, a distance of about ten feet, sustaining serious injuries. Her neck was wrenched and she is suffering from a slight concussion and body bruises. Dr. J. B. Arcece attended her. She is improving today.

## Joy Ride Ends in Death for Six in New Basin Canal, New Orleans, Just Before Dawn This Morning

Three Men and Three Young  
Women of "Queen of the  
Moulin Rouge" Company  
Buried Under Heavy Car.

New Orleans, Sept. 24.—Three young girls and three men were killed here at 4 o'clock this morning in an automobile. In making a short curve, the machine turned completely over and landed in the new basin canal, 15 feet below the roadway. Thomas Woodruff, owner of the machine, Joseph Friedman, perfumery drummer, an unidentified woman and three girls from the Queen of the Moulin Rouge company are the dead.

The bodies of Thomas Boettler, Joseph Friedman and one unidentified girl, about 22 years old, have been recovered. The other men and two other girls are pinned under the heavy touring car, which must be raised by a canal dredging boat, before the bodies can be reached. The accident ended an early morning joy ride.

### FIRE CHIEF OFFERS NO OBJECTIONS TO MILL

Fire Chief James J. Wood has no fault to find with the plans for the erection of the elevator and flour mill on South Second street. So far as the ordinance is concerned it does not prohibit wooden structures covered with corrugated iron. These structures are safe from fire on the exterior, and Chief Wood says that he has found nothing in the present ordinance preventing the erection of the proposed flour mill. The grain elevator will be about four stories high, and will be constructed of boards nailed closely together, and covered with the sheet iron. The mill proper will be constructed along the same lines.

Clearings this week \$577,991.  
Same week last year 415,887  
Increase 262,004

Fall trade was inaugurated in real style this week. All lines of business felt the stimulus, but retail trade has been stronger. The millinery openings brought out the ladies, and the shopping in fall clothes has been good this week. All the merchants are displaying stocks, and the influx of shoppers from the towns surrounding Paducah has been lively.

The Burlington railroad is near Metropolis, and more interest was created because of the visit of the Burlington officials this week. They were reticent, and in fact gave out nothing for publication, but their inspection of the proposed right-of-way on the Kentucky side is not for naught.

It is also pleasing news that Paducah will have a flour mill. The mill is a long felt need, and should prosper.

## ROCK ISLAND IS LIKELY LOOKING PLACE TO PROBE

Testimony, Which Did Not  
Come Out, Accepted as  
Hint of Graft.

Another Railroad in the Blue  
Island Company Deal.

### DIRECT CHARGES ARE MADE

Chicago, Sept. 24.—Testimony directly charging F. H. Niles, president, and William Farragher, secretary of the Blue Island Car Equipment company, with padding and fraudulently changing car repair bills made out to the Illinois Central Railroad company, was given in municipal court during the hearing of so-called car repair "graft cases." Arthur Bayfield, general clerk for the equipment company, was the witness who told of the alleged practices by which the railroad was mulcted out of over \$1,000,000.

"I became an employee of the Blue Island company in the summer of 1907," related Bayfield. "Soon afterwards Secretary Farragher took me into his private office and then he went into the office of President Niles.

"He left me in the outer office and every once in a while he would come out with a few bills and direct me to make specific changes in them. "My instructions from him were that I was to make all Illinois Central car repair bills average \$275 each, regardless of what figures were on them when they came to me. I fixed up about twenty in all, some of them being raised from less than \$100; a few from only a few dollars.

"We had three sessions like this, and in all I sent fifty bills to the railroad company that averaged \$275. Then Farragher gave me general directions to see that all bills averaged that amount thereafter.

"I worked for the company until last June when the 'graft' charges were made. One week before the plant closed in June I was asked to go to the Niles home. There I met Niles, Farragher and John Conditine. "Farragher brought out sixty-two bills of the Illinois Central and ordered me to enter \$100 extra for each car for waste. I did so, and the bills were sent to the railroad company. While I was employed by the equipment company none of the bills ever came back."

\$3,000 a Month.  
In one month, said Bayfield, in August, 1909, the Blue Island company defrauded the Illinois Central out of \$30,000. In February, 1908, having been treated unfairly as he believed by the company, he became suspicious and thereafter kept a private account of the actual repairs made for his own information and protection, should he lose his position.

This private book was produced in court and from it Bayfield read the total car repair cost for Illinois Central cars in August, 1909, to be \$16,000, whereas the alleged padded bills, he said, made the total charged for \$46,000.

That similar charges are to be forthcoming in the future in connection with the Rock Island road was hinted when on cross-examination the defendant's attorney asked the witness if he had kept similar cross check against that company.

Opened New Door.  
"Do you want me to answer that?" asked Bayfield of the attorney for the Illinois Central.

The court interposed, saying: "That question may be throwing open a door to another case, and is ruled out."

Attorneys would not comment on the incident.

## BOOTLEGGING CHARGE FOR MAYFIELD MAN

## The Evening Sun's Daily Markets.

**CLEARINGS FOR WEEK.**

New York, Sept. 24.—Dun's Review says:  
A belated improvement appears in the statement of bank clearings this week, although it is of moderate proportions. A considerable loss continues at New York city and at some other leading centers, and this still reduces the total below preceding years, but outside of New York the aggregate of exchanges exceeds both previous years, with which comparison is now made.

Total bank clearings this week, at all leading cities in the United States are \$2,478,896,041, 19.9 per cent under a year and 6.4 per cent less than in the corresponding week in 1906. Outside of New York there are increases of 2.3 and 20.7 per cent respectively. The figures this week carry the average daily for the month above the level of the earlier weeks for the first time in a considerable period. An increase is seasonable, but it is still considerably below normal.

**LIVESTOCK.**

Louisville, Sept. 24.—The receipts of cattle were 70 head; for the week thus far 3,396 head. The buyers on the yards were light, their demands limited and the market was very quiet, with little change in prices or conditions. There was a fair demand for prime to choice butcher cattle at steady prices; medium and common kinds dull and draggy and a shade to 10¢ lower, especially the grassy half fat kinds. Prime to choice stockers were in good demand at steady prices; common and inferior kinds slow sale. Choice bulls steady; common bulls and canners dull; milch cows slow. No heavy shipping steers here; feeling easy.

**Calves.**  
The receipts were 59 head; for the week thus far 639 head. The market ruled steady, bulk of the best selling at 8¢ 8½¢; some fancy light veals selling higher. Medium 6¢ 8¢; common, 2½¢ 6¢. Heavy rough calves not wanted.

**Hogs.**  
The receipts were 819 head; for the week thus far 4,733 head. The market was slow in opening and 5¢ 10¢ higher; selected hogs, 9¢ to 21¢; pounds, selling at \$9.35; light pigs, \$8.00 to \$8.60; roughs, \$8.35 down; 210 pounds and up were unsold at the time of going to press.

district, few heavy purchases of standard sections being in evidence. In the dry goods markets the improvement noted in silks and ribbons is continued and a few mills are running full and overtime. In woollens and worsteds as a whole it is better, yet orders are so small and irregular that mills are not able to resume operations in a large way. An offering of subcon prints by a large producer, designated to meet a price condition, was a feature of wide interest in cotton goods, while the announcement that the largest producer of dress gingham in the country was fully sold up was an instance of the especially good business in these lines. Cottons are generally in moderate demand and, throughout the trade, and there is a desire to confine orders to actual requirements.

## BASEBALL NEWS

The final meeting of the officers of the K. I. T. league will be held in Hopkinsville tomorrow for the purpose of closing up the league business. While at the meeting the directors will also discuss the plans for next season. There remains but little doubt but that the Kitty will have eight clubs next season.

The sporting editor of the Vincennes Capital has selected an "All Star" team of the Kitten players. With a few exceptions it is acceptable to the Paducah fans. His line-up is:

Catcher—Taylor of Hopkinsville.  
Pitchers—L. Johnson, of Vincennes, M. Johnson, of Vincennes, Yon of Hopkinsville, Hoyt, of Clarksville, Shortstop—Anderson, of Paducah.  
First base—Gust, of Harrisburg.  
Second base—DeHaven, of Vincennes.

Third base—Jantzen, of Vincennes.  
Left field—Calbert, of Clarksville.  
Center field—Hurst, of Vincennes.  
Right field—Kraft, of McLeansboro.

Utility—Shinn, of Clarksville, and Roy Johnson, of Vincennes.

Big Zeke Taylor is a slugger, but little Frank Overton has him surpassed a mile in catching. He is the headiest little backstop in the league, and has a throw to the bases that no

catcher in this league can touch. Big Zeke Taylor can stop them, but he is not in the class of Overton. Woodring or Floyd should be included in the pitchers as their work in the box has been excellent. Gust hasn't anything on Cox in fielding, but is entitled to the honor position at first because of better hitting. As an outfielder Block has ranked with the best, and he should be at least included as a utility man because of his swatting.

The barnstorming team composed of Paducah and Hopkinsville players are playing a few games. Yesterday a game was played at Owensboro and a doubleheader there yesterday. Sunday the barnstormers will play Central City and then disband to return to their homes. The lineup is: Frank Overton, c; Yon, Woodring and Crain, pitchers; Brown, lb; Vardadore, 2b; Cox, 3b; Herman Overton, ss; Goldnamer, lf; Murray, cf, and a pitcher will be worked in the right field.

A Miller Kelsker, who was an umpire in the Kitty, is director of athletics at the McLean college at Hopkinsville.

Paris won the pennant in the Blue Grass league.

Tomorrow the McLeansboro champions will tackle the Evansville Central league team at Evansville. Kraft will twirl and the effort of the Kittens will be watched closely by the fans.

### The Last Week of Vandeville.

Paducah has succumbed cheerfully and completely to the Vandeville craze this summer, and it is in recognition of this receptive condition that Managers Carney and Goodman have after tireless efforts succeeded in preparing a surprise for the lovers of Vandeville fair week. The Morris circuit, which books no dull acts, has provided Paducah and Cairo with a double bill for next week, changing Thursday matinee, that equals the best offerings at regular prices in the larger cities. Variety and novelty are combined in the offering, and the acts are so diversified and arranged that no two are capable of comparison, and whether a person likes singing, dancing, comedy, acrobatics and trained animals best, he will see his choice mixed with an interesting and classy bill of other good stunts.

Keifer and Klein, sing and dance. Skatavelli performs on the trapeze. LaMont's gorgeously beautiful costumes perform remarkable feats. Miss Pearl Stevens is a singing comedienne of ability and good looks. Then there are the pictures and illustrated songs. Matinee Monday at 2:30, night performances at 7:30 and 9:30.

### "The Marriage of a Star."

"The Marriage of a Star," in which Miss Clara Lipman will appear at the Kentucky theater Tuesday night, October 4, is an adaptation from the French. The story is of a French actress, whose daughter falls in love with and marries an American youth. The mother is vain and fears most of all growing old. She determines that she will be nice to her son-in-law and thus remain young with the children. In consequence her son-in-law falls in love with her, awakening her to the vanity of which she has been guilty. The treatment in the translated version retains the light, farcical tone of the original French. Concerning Miss Lipman's portrayal of the role, the Chicago Tribune said Sunday: "The Marriage of a Star," Frederick Donaghey's witty adaptation of Blason and Thurner's like-named French comedy, will be continued in the Princess theater, where Miss Clara Lipman's acting in the role of the vivacious actress-mother appears to be a cause of both critical and popular joy. Her engagement is limited to three weeks, the second of which begins tonight.

with that splendid musical production, entitled "A Winning Miss," and no matter what has been said of previous entertainments, and with all due regard for the good shows that have been presented at the High street in the past, it can be said that none of them have come anywhere near being in the same class with "A Winning Miss." The show is a bright, sparkling musical comedy, with plenty of really pretty girls, some genuinely funny comedians, magnificent scenery, catchy music and a plot that is just enough to make things interesting.

Thompson Buchanan, whose Kentucky mountain play, "The Cub," was produced at Atlantic City last week, with every prospect of popularity, has invaded London with "A Woman's Way," in which Grace George made a bit in America last season. This play was produced a few days ago at the comedy, and was the fifth American play to be presented in London in the course of a fortnight. Alexandra Carlisle is spoken of by the London critics as having made a personal triumph, and Charles Quartermain is commended in the role of the husband. The indications are that "A Woman's Way" will be sufficiently popular with the British to add materially to Mr. Buchanan's fame and financial prosperity. "The Cub" is a play written since Mr. Buchanan's visit to Louisville last spring. It is founded upon experiences the playwright had ten years ago when he was a young reporter and was assigned to "cover" events in the mountains during the progress of a feud between two highland families.

The Memphis News-Scimitar says: Al G. Field's minstrels are coming. This in itself is not much of an event, for it has happened often before. Two theaters will be open to receive him, and the black face organization will be the first bone of contention to be picked by the warring factions in Memphis. Clarence Weis, manager of the Lyceum, expects Field to appear at his house September 28. Manager A. B. Morrison says Field will open the Jefferson on the same date. Manager Weis has a contract with Field. Manager Morrison says Klaw & Erlanger have an earlier contract with him than has Manager Weis. As a result, both houses are waiting for a decision from the minstrel man. At the Lyceum, in New York, "Decorating Clementine," by the authors of "Love Watches," has produced with Hattie Williams and G. P. Huntley in the prominent roles, and Doris Keane, Alice Putnam, Richie Ling and others in the cast. On the other side it gained a phenomenal success under the title of "Le Bois Sacre." Here it is known as "Decorating Clementine." It was produced this week at the Lyceum Theater in New York. The story is of a beautiful authoress and her ambitions to win the blue ribbon of the Legion of Honor. We first find Clementine Margerie intensely happy sharing the commonplace joys of country life with her decidedly unlettered but handsome husband, Paul. The fame of the wife, who is the author of several "best sellers," did not affect the serenity of their home in the least until a friend announces that the blue ribbon is about to be bestowed upon a rival authoress. Piqued to learn that another woman is likely to secure an honor which she herself deserves quite as much, she determines to cultivate as much, she determines to cultivate the minister of fine arts, who has the power of granting this much-desired

Al H. Wilson, the German dialect comedian, will present "Metz in Ireland" in this city, October 18, under the direction of Manager Sidney R. Ellis, whose superb productions in the past are a guaranty that the coming performance will be as picturesque and dainty as the subject allows. As indicated by the title the play has an Irish atmosphere, but the German element is always present in the character of Metz Klunkilly, as portrayed by Mr. Wilson. Irish folk lore has been drawn upon for many important incidents in the piece and is said to lend an element to the story that is fascinating.

### Blanch Walsh Always Welcome.

The announcement of Miss Blanch Walsh in her new play "Barbarosa," among the October bookings, is welcome news to Paducah theatergoers. Miss Walsh has never before honored Paducah with a visit. But her reputation has preceded her, and many remember her great work in Tolstoy's "Resurrection," her change from the innocence of the peasant maid to the wonderful character impersonation of the Magdalene, and her convincing rendition of the woman's resurrection to true life. In that play, which runs five acts, three complete changes of the cast confront the star, upon whose shoulders rests the shifting burden of the plot as well as the portrayal of a role that presents unusual extremes. It stamped Miss Walsh as a great actress, and lifted her out of the narrow classification of mere "character" or "emotional" parts.

### Notes of the Road.

It will interest Paducah people to hear how Boyle Woolfolk, the Louisville boy, who put on "The Traveling Man" for a local benefit two years ago, is getting on in the profession. The Columbus (Ohio) Dispatch has the following to say of Boyle Woolfolk's play, "A Winning Miss." "After remaining dark for three days last week, the High street theater opened, Monday afternoon

emblem. To make her quest more effective, she orders her shy husband to flirt with his wife. It is the beginning of her unhappiness. Her attentions to the minister, Mons. Murel, are naturally misunderstood, and her husband's flirtation with the minister's wife assumes a degree of ardor that threatens the dissolution of their household. Madame Murel is a past mistress of coquetry, her affairs being frequent and short-lived. When Paul Margerie is given the task of winning her, she is clandestinely receiving the attentions of one Count Slavonkine, master of a troupe of Slavonic dancers from the Russian Imperial Opera House. But Paul Margerie soon outstrips the Slavonic count in the fierce affections of Madame Murel. One day he is suddenly discovered in an embarrassing situation with the young wife of Madame Margerie.

The Native Spanish Dance. There is something about the native dances of Europe, that have been evolved through many generations, that lifts them above the clackety-clack of the eccentric dance of the average performer. There is a rhythm that involves the whole body in the movement; it is more natural, artistic and graceful. Then the performers dance as if they enjoy it and enter into it body and soul. It has the appearance of being impossible unless the performers are physically and spiritually up to the task. Diaz and Rodriguez, who are doing the native Spanish dances at the Star this of their audiences whirling to the week in costume, have set the heads snap of their castnets.

## Daily Thought.

Nothing conduces more to breadth of intellect than intercourse with various minds.—Matthews.

At 5 last evening Autumn began.

A great many of our biggest family trees are too shady.

We trust there will be no conjunction between the Fall fair and the equinoctial storms.

They say the road to hell is paved with good intentions. Perhaps, that is what makes those joy ride autos skid so.

Democratic hopes in the Eleventh district seem to be based on the anticipation that the Republicans, who voted for Caleb Powers at the primary, won't support him at the election.

Since the result has been announced in Minnesota, that arch insurgent publication, The Saturday Evening Post, should put a ban on tawny-eyed heroes in its continued-in-our-next romances.

If a man knows he is not good and tries to do better, his knowledge is transmuted into a virtue; but if he knows he is not good and takes credit for the knowledge without effort to improve, he is like the hog that knows his wallow and enjoys it.

Congressman Tawney, of Minnesota, who was defeated for re-nomination, finds in the returns that in a district, which cast 7,000 Democratic votes in the last general election, only 150 Democratic votes were cast at the primary, while he was defeated, although he received more votes at the primary than President Taft did at the election. In other words, in Minnesota as in the other northwestern states, the Democratic party seems to have been absorbed by the insurgent Republicans.

The Breathitt feud has been dramatized. The immortality of the Hargises and Callahans is assured; but the drama, like the geological strata that hand down to us the fossil remains of the antediluvian monster and the things upon which it fed, will never record for future generations the story of the changes of venue to remote mountain counties and the peculiar appointments of special judges made by the late state administration to try those politico-feud leaders.

## MUST HAVE HAD A TIP.

According to the way Henry Lawrence states the case in the Cadiz Record, all the Third senatorial district committeemen knew there would be a tie on the question of holding the nomination this year for a state senator to be elected next year, and the only result of a meeting would be to put the question up to the state central committeemen from the First congressional district. That being so, it is significant that the member from Calloway, who favored an early convention, thus forcing McCrory's man, Lawrence off the state

## WILL SCOTT WOULD DO

Now that Captain Howard has abasquated in the face of the enemy, and has left his supporters hung up between heaven and earth, we propose to see that they get the benefit of a square deal.

Captain Howard was a great runner in the preliminary dash, and distanced our esteemed little roly-poly friend, the Hon. Senator Andrew Jackson Oliver. Then Jack got mad and announced himself a candidate for secretary of state or auditor or lieutenant governor or some one or more of the state offices. So that puts him out of the running, unless Jack changes his mind, which he has sometimes done, so it is said.

However, on the whole, there's no reason why we should persuade the senator to desist from his purpose of cribbing a state office to grab the barren bone of a congressional nom-

ination. We've got a man right in our midst, as it were, who could make the race, and who would really believe until the polls closed, that he and his party had swept the whole face of the earth. Need it be said that we refer to our esteemed young friend, William R. Scott, of Bowling Green, editor of the Third District Review?

On his behalf we desire to say that he is a gentleman from the top of his shapely foot. He fights the battles of Republicanism because he believes in the righteousness of his cause. He would have an organ of his own, and could thereby be enabled to get his name and the party's cause before the people.

A word to Frank Taylor and the rest of the bunch of bosses: What's the matter with Scott? He's all right! —Bowling Green Messenger.

committee, was anxious to have the meeting, carried previously prepared resolutions in his pocket, and rushed posthaste to Paducah to see the state central committeemen after the alleged meeting. It is also significant that the members, who didn't want an early convention refused to meet with him. Maybese, they had a tip in advance how the state central committeemen would decide.

## A RATHER REMARKABLE CONFESSION.

The Bowling Green Messenger makes this remarkable confession: "For the past fourteen years at more or less regular intervals we have been called on to carry the banner and cast the ballot for the Peerless One from Nebraska, and we have done it with remarkable unanimity, but, we regret to state, not in sufficient numbers to land him in the white house at Washington. Not to the writer of these lines, but to many of our readers and to a large number of the Democrats of the nation there had to be a sacrifice of preconceived opinion on the currency question in order to give him a free and untrammelled vote."

We take it, Ed means that he and others have deliberately sacrificed principles and voted for things they believed were not right, in order to maintain a semblance of loyalty to a party name. If he and they have done so in the past, they may be doing so now and may be expected to do so in the future. It is important to know this.

## WHAT DEMOCRACY IS UP AGAINST.

While the Republican party is thrashing out the question of state and federal control of combinations of capital, the Democratic party seems to have run foul of the liquor question. The news comes from Nebraska, that William Jennings Bryan will decline to support Mayor Dahlman, of Omaha, who secured the Democratic nomination for governor by 200 votes on an anti-prohibition platform; and the fight in Tennessee has resolved itself down to a straight-out contest between the state-wide forces on the side of the coalition of independent Democrats and Republicans, and the wets on the side of the regular Democratic organization. The Nashville Banner plainly specifies the issues in its reply to the call for harmony meeting of Democrats, when it says that, while Patterson is out of the way, the old Democratic organization is opposed to the enforcement of the present laws, and those papers, which favor a reorganization advocate modification of the prohibition laws.

The issue is not with regard to the governorship, it is the legislature, which both sides are after, and, although a successor to Senator James Frazier is to be elected, this question is obscured by the still pressing issue of prohibition in Tennessee. There is absolutely no chance for harmony down there; but the situation must be bewildering to Frazier.

## STATE PRESS.

## He Sees Double.

The chairman who can cast three votes with no one present but himself is certainly a good one.—Calvert City cor. Mayfield Messenger.

## As They See It in Hickman.

Over in the Third senatorial district the politicians, seemingly forgetful that the sovereign voters are standing looking on, are indulging in a game of sharp practice trying to outwit each other by hook and by crook, the cheese at stake being a seat in the state senate which Conn Linn hung away when he left for Oklahoma. The committee met at Murray the first of the week and Henry Lawrence, of Cadiz, who aspires to succeed Linn, was outmaneuvered by the combined opposition, which called county conventions for November 15 to select delegates to the district convention on November 17. Lawrence wanted a nominating convention next year and may refuse to enter this snap convention. There are several other candidates for Linn's seat in the senate and they are responsible for the early date set for the convention. This unhappy wrangle in the Democratic ranks increases the chances for a Republican to be elect-

ed as the voters are inclined to be independent in that part of the state.—Clinton Gazette.

## As Henry Lawrence Sees It.

The Democratic committee of the Third senatorial district, called to meet at Murray Tuesday, September 20, did not meet and no action at all was taken to fix the time and means of nominating a candidate for state senator. There was no one present at all except Mr. N. L. Chrisman, of Calloway county, who called the meeting. Chrisman was reported to have held the proxy of Mr. J. L. Mitchell, of Livingston county, but there are four members of the committee, and one man and a proxy could not transact business, and nothing was done.

It is said that Chrisman and his proxy sat in meeting assembled and attempted to take some action, but no one knows but Chrisman and his proxy what Chrisman and his proxy did nor what they named it, if they did anything.

Mr. R. J. Doom, of Lyon county, and W. C. Broadfoot, of Trig county, went to Murray on the day the committee was called to meet, hoping to meet Mr. J. L. Mitchell there from Livingston county and inform him of the wishes of the Democrats in their counties and to consult with him about the best interests of the Democratic party and see if any action of the committee could not be postponed until about the usual time of acting in such matters and until the people desired action. When they found that Mr. Mitchell was not there and that Mr. Chrisman had his proxy and was determined to take action, Mr. Doom and Mr. Broadfoot, acting according to the wishes of their people, declined to go into any meeting. They could not vote for setting a time and manner of making a nomination now and act according to their best judgment, and to go into a meeting meant a tie vote, and Mr. Chrisman, for some reason unknown, being determined upon action, a tie vote meant refusal of the matter to the central committeemen (W. A. Berry) and from him possibly to the state central committee as a whole, with a general fuss as the result. So rather than have that, they chose not to go into the meeting. Mr. Chrisman may serve the personal ambitions of ex-Senator Utley and Hon. Rainey T. Wells by his disposition to rule or ruin and force upon the Democrats of the Third senatorial district that which they do not want, and he may serve the sinister schemes of some unseen political trickster by such methods, but he will do his party great harm. Calloway county Democracy has gone from 2,200 Democratic majority into the election of a Republican county ticket by just such tactics as Mr. Chrisman is now undertaking; but in one respect he stands alone and has the blue ribbon in high handed methods. Herebefore in Calloway first one faction and then the other has used the steam roller and taken everything regardless of either justice or right, and regardless of the party's interest, but in this matter both factions seem to be opposed to Mr. Chrisman, and he and his proxy not only attempt to run things in Calloway, but to spread out and run the Third senatorial district by his rule or ruin methods. Judging by Calloway's experience, Mr. Chrisman ought to know that it is easier to run than to rule by disregarding the wishes of the people and the interests of his party.—Cadiz Record.

## A Calloway View.

A call fourteen months in advance of the election might be termed stealing at long range.

The fellow who accepts a nomination for the state senate under the call for a convention as made by Newt Chrisman might as well pack his belongings, call the dog, put out the fire and move.

W. A. Barry, state central committeeman from the First congressional district, will be the court of last resort and will pass upon the second political theft perpetrated in Calloway county, and his decision is already known. There is one more dose of bittern in the people's medicine chest and it will be administered after some jackass accepts a nomination for the state senate under the call for a convention as issued by Newt Chrisman.—Murray Ledger.

After spending last night here D. K. Jeffries and family of Chicago left this morning in their handsome yacht, "Dolphine" for a cruise in southern waters. The party arrived about 3 o'clock yesterday afternoon from Cairo, where, they arrived yesterday from Chicago en route to the Crescent City. A side trip was made to Paducah. Pilot Boyce Berryman brought the yacht to Paducah and it was tied up at the foot of Washington street for the night. This morning Capt. James F. Browninski, of Joppa, Ill., took his post at the wheel and will probably go as far as Memphis, where he will be relieved by a Memphis pilot. Mr. Jeffries is president of the Chicago Car Lumber company, which is now operating the towboat Thomas H. Benton up the Tennessee river. While at New Orleans he will look over the timber country. The "Dolphine" is a sea-going vessel and is complete in every detail. Mr. Jeffries left Chicago two weeks ago, stopping at the chief river cities.

## AT FORT MASSAC

PAVILION WILL BE ERECTED BY STATE.

Governor Deneen Says Plans Are Being made for it Now.

Metropolis, Ill., Sept. 24.—The Tribune says: The citizens of Metropolis are deeply interested in everything pertaining to the welfare of the community. It will be remembered that during the last session of the legislature Senator D. W. Helm succeeded in having a bill passed carrying with it an appropriation of \$2,500 for the purpose of erecting a pavilion at Fort Massac. Many of our citizens have been wondering what has become of this matter, and the Tribune, having had occasion recently to write Governor Deneen, made inquiry as to the status of this enterprise. The following reply will be of general interest:

Editor Tribune,  
Metropolis, Ill., Sept. 20, 1910.  
My dear Sir—Your letter of the 3rd instant was received at the office in my absence I give below a memorandum furnished me by one of my secretaries regarding the matter to which you refer:

"Mrs. Weber has sketches and estimates from Mr. Zimmerman of the proposed improvements and will, with other members, visit the park next week with a view to starting the work. Delay has been caused by reason of the fact that the appropriation was not sufficient to erect the building they want. It is expected that there will be enough of the 'general fund' available to make up the desired sum. All these matters will be determined after visiting the grounds, and the work will be commenced and pushed to completion."

I was greatly pleased with your reference to my Taylorville speech. I hope to be in the southern part of the state during the campaign and should be pleased to go to Metropolis and renew the pleasant friendships I made there.

Yours Truly,  
C. S. DENEEN.

The viva voce manner of voting will be used, this in pursuant to call Republican city committee.

E. E. BELL,  
Chairman Rep. City Com.

Paducah, Ky., Sept. 24, 1910.  
To the Public:

In regard to an article that appeared in both our daily papers recently regarding the awarding the title of Goddess of Labor to the Ship Carpenters Local's candidate over the House Carpenters' candidate, we desire to make the following statement:

The election for Goddess of Labor was set for the night of Sept. 5th, and with this understanding the House Carpenters' Union put a candidate in the field. The Ship Carpenters' Union understood this as well as did our union and the general public. When the hour came for the count to be made all parties were notified to be ready at 10 o'clock that the count would be made promptly at that hour. When 10 o'clock came the committee for the Ship Carpenters said they were not ready for the count and would not turn over the money till the following night. We at once saw there was something wrong in the premises and demanded a count under the rules of the contest, but were refused a count. It looked to us that the other side was playing for time to get more votes then and still looks to us that way now. Who ever heard of an election for anything being set for a certain day and then because the minority is afraid they lack some votes are given more time to secure the desired number? We had them beat then and we still have a third more votes than they turned in sixteen days after the day the votes should have been counted, and we never received one vote after 10 o'clock on September 5, 1910 (Labor Day). The general public can see very readily why we refused to go up against a plain skin game. We sometimes feel we are an easy mark, but must admit that it takes some one shrewder than a bunch of Ship Carpenters to administer the dose. We refused to be duped into such an outrage or allow our candidate to be, and we still have every dollar of our money that our tickets brought and expect to keep it till the American Federation of Labor instructs us to turn over and be skinned.

Very respectfully,  
Carpenters and Joiners Local 559.

#### Dew as a Beverage.

Dew, which, according to the poets, has always been the favorite beverage of fairies, is now utilized for the more prosaic purpose of slaking the thirst of the British soldiers at Gibraltar. The scarcity of water there has resulted in the collection of dew by the following simple method. A large pit is covered with straw, which in turn is covered with sheet iron. The straw serves as a heat insulator, and consequently the iron cools much more rapidly at night than the surrounding earth. Dew forms upon it in large quantities, and is drained off in reservoirs for drinking purposes. —Boston Courier.

#### VITALITY OF EGGS.

German Bird Fancier Makes Some Interesting Tests.

A German bird fancier has made a series of experiments for the purpose of determining the vitality of eggs in different stages of incubation. On the fifth day of incubation five canary bird's eggs were taken from the nest, marked with numbers and replaced in the nest, one by one, at half-hour intervals. This experiment was repeated ten times, with as many clutches of eggs. As a rule, says the Scientific American, the first three eggs replaced hatched normally and the two others failed to hatch. Hence it may be inferred that the average longevity of a canary bird's eggs, taken from the nest on the fifth day of incubation, is one and a half hours. In the same way the longevity was found to increase to two or two and a half hours on the seventh day, and three and a half hours on the ninth day of incubation. It was discovered by accident that eggs in a very advanced stage of incubation can endure very much longer periods of removal from the nest. Two eggs, purchased as plover's eggs in the course of an excursion, were stowed in a basket, brought home and forgotten. On the evening of the following day a faint "peep" recalled the existence of the egg, and it was found that a young snipe had issued from one of them. The second snipe soon made its appearance, but lived only an hour. Hence it appears that the vitality of partly hatched eggs depends on the size of the bird as well as on the stage of incubation.

#### The Winds.

Here on the open moor,  
Under the open sky,  
With a surge as of restless feet  
The hosts of the winds go by.

Whence they came who knows?  
Whither they fare who knows?  
The tropic jungle deeps,  
The vast of the arctic snows!

Out of and into the void—  
Space with no bound or span!  
Freed from its mortal gyves,  
So with the spirit of man!  
—Clinton Scollard in October Ainslee's.

"Well, a few of them gathered informally to watch our furniture go in."—Kansas City Journal.

## The Week In Society.

#### Only a Man.

He comes along the road of life,  
With careless smile and a merry song.

And plucks a rose that grows by the way,  
Loves it a while—perhaps for a day.

He soon forgets that beautiful rose  
And goes in search of another.

Only to cast aside and forget  
With never a thought or sigh of regret.

He goes along the road of life,  
Till at last he comes to the dreary way.

And there he finds that no roses bloom—  
Misses their sweetness—craves their perfume;

But summer has fled, the roses are dead,  
And only memory lingers.

One tiny petal is all that remains,  
But that tiny petal, how well it explains.

#### L'ENVOI.

Only a man—just a man—that's all,  
And the rose is a woman's heart;

What does he care for the sweetness wasted;  
His thoughts are all for the sweetness unshared;

Her every thought was a thought of him;  
His love was only a boyish whim.

The rose droops and dies,  
But he hears not her sighs,

For he's only a man—that's all.

## CIRCUIT COURT TO MEET MONDAY

### CRIMINAL DOCKET TO BE TAKEN UP FIRST.

Grand Jury Will Be Charged and Set to Work the First Day.

### INTEREST IN ITS WORKING.

Next week the court here will be a place of action again, and a good source for news after the regular summer dullness. Circuit court will convene Monday morning, and the wheels of justice will begin to grind again after a rest of several months. Circuit Judge William Reed has returned from his vacation; the docket has been prepared by the circuit court clerk; the sheriff has summoned the witnesses and jurymen; the jailers report the jail crowded to overflowing almost; the prosecuting attorneys are ready; in fact all is in readiness for the start Monday.

It promises to be a hot session of court. The criminal session will occupy the first weeks, and then the civil terms will follow. From next week until next June there will be almost continuous sessions of circuit court, and with the doings of quarterly court and county court the newspaper reporters are assured of news for some time.

Monday will start with the empanelling of the grand jury, and the delivery of the charge by Circuit Judge William Reed. He will instruct the jury on the law, and how to investigate the violations of the statutes. For the first week the grand jury will dispose of the jail cases so that the prisoners in prison may be tried. Later the grand jury will take up the investigations and air rumors of violations of the law. There will be plenty for the jury to do. In the county jail Jailer Henry Houser has 63 prisoners and 43 of them are in jail on felony charges, in addition to the large number of persons out on bond. Sheriff George Houser and his deputies have made a clean sweep of the warrants placed in his hands for execution, much to the sorrow of the alleged offenders.

Tuesday the petit jurors will be

empaneled and the trial of the criminal cases will be begun. These will occupy attention for about three weeks. After a week's vacation the civil term will begin and continue until nearly Christmas.

### Plumbers Case.

By far the most interesting criminal case is the alleged conspiracy among the plumbers. Mart M. Coulson, Ed D. Hannan and Arts & Talbot are now under bond awaiting the action of the grand jury. This covers city work on the allegations made by Mr. Coulson that the three firms went into an agreement, in bidding upon work, and deciding in advance who should get the work before the competitive bids were placed. The trial of Alderman Ed D. Hannan was postponed by the aldermen until after this session of circuit court.

Second to interest is the Pool road murder mystery. Tom Farrin, who made a confession and accredited Guy Dean with the murder, is still in the county jail and his case will be taken up. At the last session of the grand jury a thorough investigation was made, and Hale and Guire, suspects were released. In his examining trial Guy Dean was released for want of evidence, but Farrin was held over mainly because of his own alleged confession.

Two negro women are charged with murder. Rachael Jackson charged with the murder of her husband, Jim Jackson, and "Black Marjorie," charged with the murder of a colored woman on August 3 in Rowlandtown. The majority of the Smedley cases are on the docket, but as Hiram Smedley is in the penitentiary now, there is no prospect that these will be taken up.

In Commonwealth's Attorney John G. Lovett was in the city last week getting a line on the docket. He will return tomorrow and be ready for circuit court. County Attorney Sanders E. Clay has prepared the cases for the county, and will assist in the prosecution.

Mrs. Jacob Wilmert, Lincoln, Ill., found her way back to perfect health. She writes: "I suffered with kidney trouble and backache and my appetite was very poor at times. A few weeks ago I got Foley's Kidney Pills and gave them a fair trial. They gave me great relief, so continued till now I am again in perfect health." Gilbert's drug store.

"How is your new village band getting on with its rehearsals?" "We don't have rehearsals; we started right in giving band concerts."—Judge.
